

Save with Adesco MouldMaster this harvest.

Adesco **MouldMaster** dual action formulation is more powerful, so it takes **33% less** on average to treat your grain.

- ✓ **Greater grain preservation power**
Treats much more grain than other dilute preservatives
- ✓ **Proven performance in extreme conditions**
Effectively preserve grain harvested at up to 24% moisture
- ✓ **Backed by research**
€140,000 Innova funded research in conjunction with UCD

Don't dilute your bottom line with weaker products.

Application rates for Adesco grain preservation

More Powerful. More Flexible.

Adesco **MouldMaster** is proven at up to 24% moisture

MOISTURE% (UP TO)	MouldMaster kilos/tonne*	
	Up to 4 months	4 to 12 months
15%	0.50	1.00
16%	1.00	2.00
17%	2.00	3.00
18%	3.00	4.00
19%	3.75	4.75
20%	4.50	5.50
21%	5.50	6.50
22%	6.50	7.50
23%	7.50	8.50
24%	9.00	10.00
24% AND ABOVE	NOT RECOMMENDED	NOT RECOMMENDED

*Individual usage rates should be discussed with your Adesco Representative.

Nationwide Support

Adesco will support you throughout the storage period by visiting your store to record and report the temperature of the grain. Adesco can also take samples on a regular basis for analysis which will be an indicator of grain quality over time.

If you have any queries concerning the treatment and aeration of your grain or should you need any assistance in setting up a temperature monitoring / aeration procedure please do not hesitate to contact any of the Adesco technical support team.

Our engineer Steve Duffy provides nationwide installation, service and calibration support.
