

# Trusted to Lead The Industry in Ireland

## Clean Feed, Clean Food.

You've worked hard to build your reputation for high quality feed. Traceable, quality animal feed is a cornerstone of Ireland's reputation for food excellence. For 18 years Adesco is proud to deliver grain management solutions tailored to Ireland's unique climatic and agri-economic environment.

### Market Leader

Through our interaction with customers for 18 years and sharing their needs with our R&D partners we have developed market leading products optimised for Irish conditions.

### Assured Grain Quality

Our aim is to assure the quality of both product and animal performance while enabling you to improve total cost management.

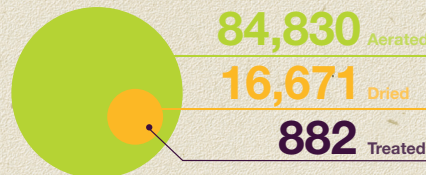

#### SHARING OUR EXPERIENCE TO HELP YOUR BUSINESS

18 years of practical experience to help your business succeed.

#### ASSURED GRAIN QUALITY

Comparing quality of grain as measured by colony forming units (cfu's) per gramme of grain.

#### SUPPORTED

**24/7** a support

**TREATMENT USES 12 times**  
less energy than drying

**MINIMISING CARBON EMISSIONS**

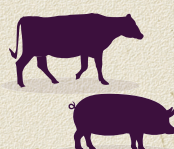

**SAVES UP TO €10.00**  
per tonne over drying

### Market Potential

The only partner in Ireland to support you in 3 ways to develop the market potential for high quality grains in ruminant and mono-gastric feeds.

**1 QUALITY**  
Determine how differing storage methods impact on grain quality.

**2 PERFORMANCE**  
Evaluate animal performance and feed digestibility in pigs and cattle.

**3 EFFICIENCY**  
Assess the energy costs, economic value and carbon emissions of aerated, dried, and Adesco treated grains.
